

WeLead

Brand Guidelines v1.0

Strong athletic energy • Clean SaaS layout • Subtle tech glow • Structured grid • Dark + light modes

A large, white, stylized logo of the word "WeLead" on a dark background. The "W" is lowercase and features a dynamic, curved swoosh that extends from the top of the letter. The "e" is lowercase and has a small circle above it. The "L", "e", "a", and "d" are all lowercase and rendered in a clean, modern sans-serif font. The overall design is minimalist and athletic.

1. Logo system

Use the primary mark whenever possible. Use monochrome marks on complex or high-contrast backgrounds.

Primary (Light)

Primary (Dark)

Monochrome

Icon

Red

Dark

Light

Usage rules

- Clearspace: keep at least the height of the red dot around the logo.
- Minimum size (digital): 120px wide for the wordmark, 32px for the icon.
- Don't: stretch, recolor, outline, rotate, or add heavy shadows to the logo.

2. Color + Typography + UI

Color palette

Primary Red
#E84848

Charcoal
#282838

Dark Background
#111317

Surface Light
#F7F7F9

Border Light
#E6E6EA

System colors

Success, info, warning use standard UI colors to stay SaaS-familiar.

    Success • Info • Warning • Error

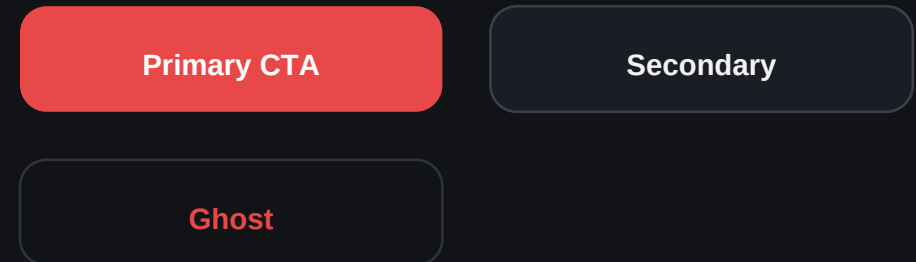

Typography

- Recommended: Inter (UI) + Montserrat (Headlines).
- Fallback: system-ui, Segoe UI, Roboto, Helvetica, Arial.
- Hierarchy: H1 48/Bold • H2 36/Semibold • H3 28/Medium • Body 16/Regular • Cap

UI tokens

- Grid: 8pt spacing system (8/16/24/32/48/64).
- Radius: 8px default, 14px for large cards.
- Shadows: subtle in light mode; none or minimal in dark mode.
- Glow: use red glow only for primary CTAs + focus states (subtle).
